

Mayor Kasim Reed

Green Infrastructure Strategic Action Plan

CITY OF ATLANTA DEPARTMENT OF
**watershed
management**

August 16, 2016

What is Green Infrastructure?

Gray

vs.

Green

Slow, Infiltrate, and Clean Stormwater

Reduce impervious surfaces

Promote infiltration

Types of Green Infrastructure

Natural Green Infrastructure

- Wetlands
- Floodplains
- Forests
- Stream Buffers

Engineered Green Infrastructure

- Bioswales
- Rain Gardens
- Permeable Pavements
- Green Roofs

Pioneer Projects 1990s-2011

Green Roof - Atlanta City Hall

Cistern & Green Roof - Southface

Bioretention - Adair Park

Bioretention - 14th St DWM office

Bioswale - Fernbank Museum

Porous Concrete - Felder St

Pervious Pavers - English Park

Wet pond, wetlands bench, sewer capacity relief, urban reforestation - Historic Fourth Ward

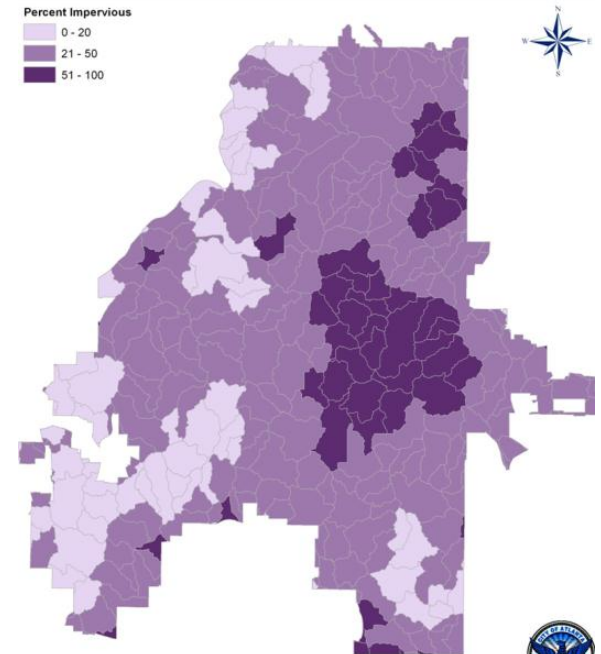

Bioswale - Klaus Building - GT campus

Why Green Infrastructure in Atlanta?

- **Environmental Protection**
 - *Improves water quality*
 - *Supports Mayor Reed's sustainability initiatives*
- **Compliance**
 - *NPDES permit – Removing Barriers*
 - *Prepares the City for potential changes in federal stormwater rules*
 - *CSO Permits*
- **Community**
 - *Addresses drainage issues in redeveloping historic neighborhoods*
 - *Maximizes infrastructure investments by further reducing combined sewer overflows and flooding*

Amended Stormwater Ordinance

Requires green infrastructure

1 inch Runoff Reduction

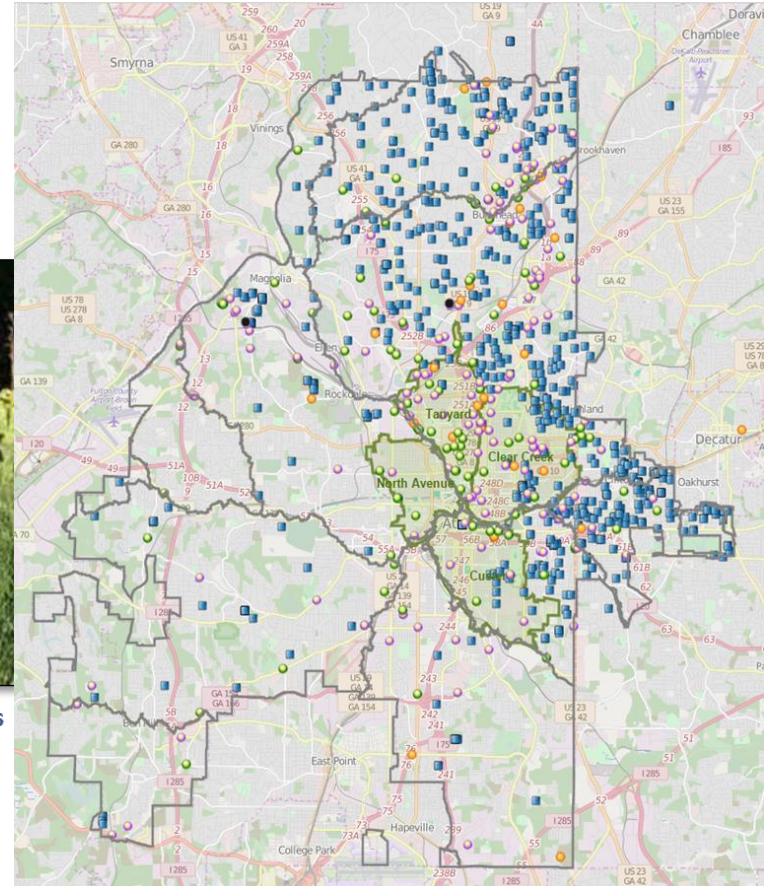

- New development and redevelopment
- Commercial
- Single-Family

Porous Concrete - Delia's Chicken Sausage Stand

Bioswale - Edgewood Townhomes

SE Atlanta GI Initiative

Permeable Pavers, SE Atlanta

What's Different?

Philadelphia Peer Exchange

**Dept. of Watershed Mgt
Dept. of Public Works
Dept. of Parks & Rec
Dept. of Planning**

November 2012

**InvestAtlanta
Atlanta BeltLine, Inc.
Park Pride
The Conservation Fund**

Next Steps

- Formalize Green Infrastructure (GI) Working Group
- Develop a City-wide Green Infrastructure Action & Implementation Plan
- Commitment to maximize GI in City projects at all stages

Strategic Action Plan

Green Infrastructure Strategic Action Plan Implementation

GREEN INFRASTRUCTURE GOAL:

225 Million Gallon
Reduction of
Runoff Annually

(Annual 1% reduction in volume of runoff from a 1" storm)

Actions:

- Project Implementation
- Policy, Funding, & Planning
- Partnering & Outreach
- Data Tracking & Technical Analysis

Action: Project Implementation

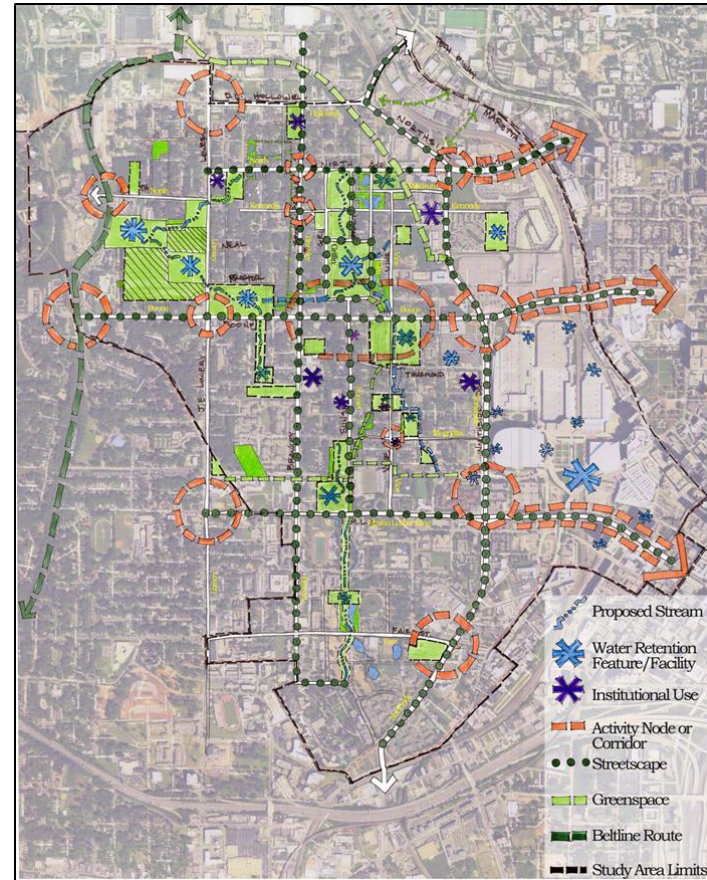

- CIP
- Complete Streets guidance
- Municipal Option Sales Tax (MOST) for stormwater
- TSPLOST, etc.

Action: Policy, Funding, & Planning

- Integration
- O&M Plan
- Code Revision
- Grants and Incentives

Action: Partnering & Outreach

- Public Involvement framework
- Advisory Committee
- Education resources
- Partnership “infrastructure”

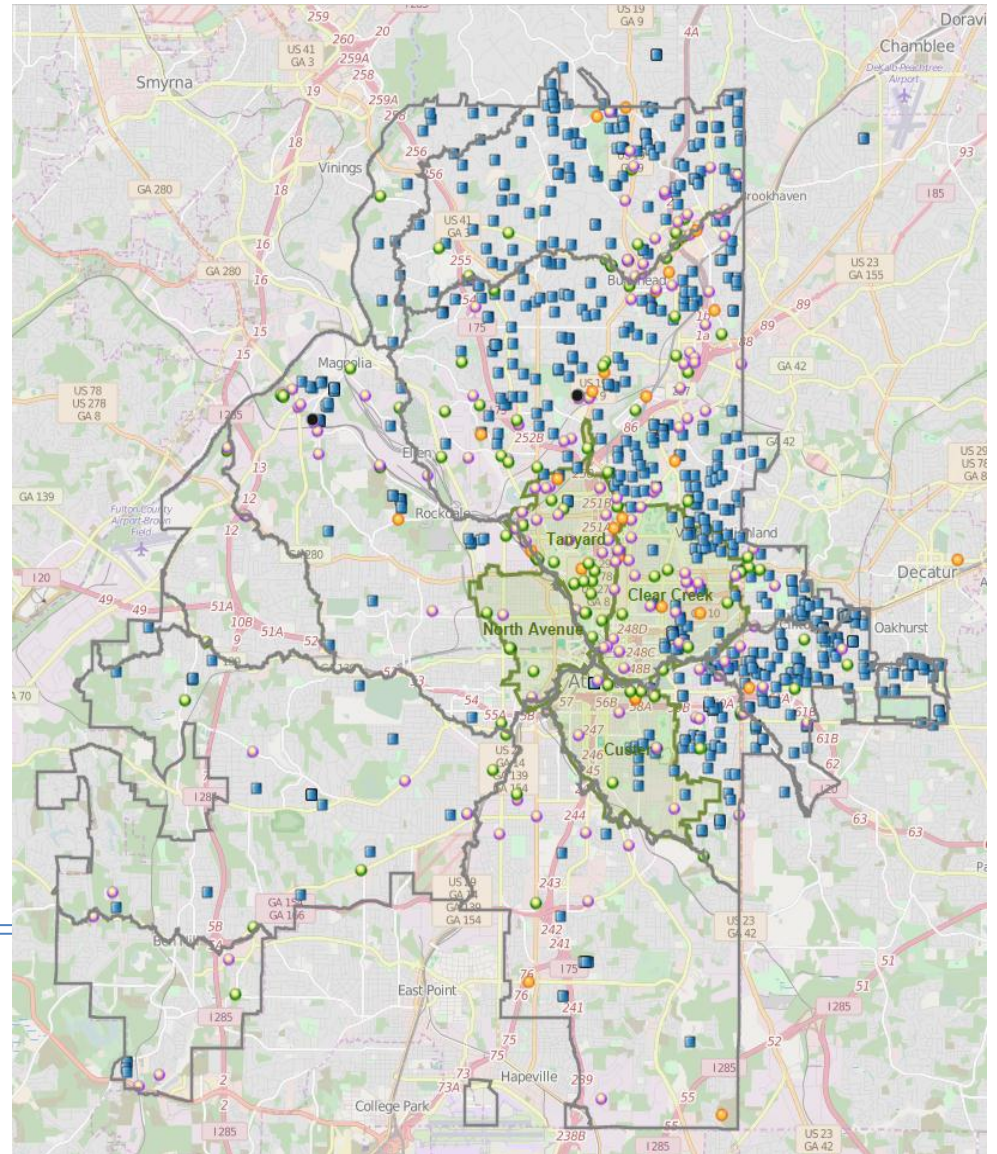

Action: Data Tracking & Analysis

GREEN INFRASTRUCTURE GOAL:

225 Million Gallon
Reduction of
Runoff Annually

(Annual 1% reduction in volume
of runoff from a 1" storm)

- Citywide tracking system
- Goals and benchmarks
- Monitoring
